

52.(twice amended) An electronic system, comprising:

an electronic device, provided with a slot;

an external device providing a peripheral function for the electronic device;

a card, inserted into the slot of the electronic device [and] for operatively connecting the electronic device to the external device via a wireless communication channel;

a data connector for transferring input information to the electronic device and for receiving output information from the electronic device;

a wireless data transmitter/receiver for transmitting the output information to the external device and for receiving the input information from the external device via the wireless communication channel; and

a data transfer circuit, in response to receiving the input information by the wireless data transmitter/receiver, for transferring the input information to the data connector[,] and, in response to receiving the output information by the connector, for transferring the output information to the wireless data transmitter/receiver,

wherein the data connector, the wireless data transmitter/receiver and the data transfer circuit are incorporated with the card.

#### REMARKS

The present reissue application currently includes patent claims 2, 4-18, 20 and 22-37 and added claims 38-55. Further, patent claims 1, 3, 9 and 21 have been cancelled.

The Applicant had a telephone conversation with the Examiner on October 6, 1998. During this conversation, the Examiner stated that he considered all of the references cited in three Information Disclosure Statements filed by the Applicant on July 7, 1998, July 13, 1998 and December 31, 1997. Further, the Examiner stated that PTO 1449A Forms will be included in the Notice of Allowance in order to confirm that all of

the references were considered. It is noted with great appreciation the time the Examiner took the time to discuss this matter with the Applicant.

The Applicant is submitting this Supplemental Amendment in order to make a number of changes of an editorial nature in the claims. Such amendments included deleting "device" from line 1 of claims 20 and 23-37. This was necessary in order to make the preambles of these claims consistent with the preamble of claim 39. Further, commas were either inserted and deleted in claims 38-41, 45, 47 and 52 in order to improve the grammar of these claims.

The Applicant is also submitting Appendixes I and II in order to aid the Examiner with the disposition of this application. Appendix I is a final clean set of claims reflecting all of the amendments made during prosecution of this reissue application including this Supplemental Amendment. Appendix II is a set of claims showing the history of all of the amendments made during prosecution of the reissue application.

Any fee due with this paper, not fully covered by an enclosed check, may be charged to Deposit Account 08-1634.

Respectfully submitted,
